We assist our clients in safeguarding the novelty and originality of their design, shape and configuration of their objects through our Object of Registration of Design services. The aim of Design Act is to protect novel designs devised to be applied to (or in other words, to govern the shape and configuration of) particular articles to be manufactured and marketed commercially.

Trademark registration confers legal rights to the owner of the trademark. By registering a trademark, the registered owner shall get the right to sue against infringements. Also the registered owner can assign the trademark by way of lease, sale etc, if needed.

Trademark is an intellectual property; covered under the intellectual property laws. You must be aware of the intellectual property rights conflicts during the previous years IPL matches; the official organisers had with advertisers regarding the unauthorised use of logos, emblems etc. Only the registered proprietors of Intellectual Property Rights; like trademarks, servicemarks, copyrights etc can proceed with legal remedies
