What is Mesotherapy?

As your skin ages, circulation Exposure to sun and pollution destroys collagen- the essential protein of connective tissues making the skin loses its plumpness and resiliency. Mesotherapy is a safe and natural alternative to invasive cosmetic procedures for effective skin rejuvenation that involves injecting small quantities of pharmaceutical, homeopathic medications, vitamins, and other ingredients just below the surface layer of the skin, i.e., the dermal layer of the skin.

How does it work?

The process involved in Mesotherapy delivers vitamins, minerals and amino acids directly into the skin to nourish and rejuvenate and promote production of collagen, thereby stimulating your body metabolism. Materials that are infused are anti aging materials that help in reducing lines and wrinkles, and improving sun damaged skin, and works as an ideal glow treatment.
