

Why you should  
**MANUFACTURE YOUR  
NEXT COLLECTION**

with a Slow Fashion Factory

## ENVIRONMENTAL BENEFITS

Slow fashion companies make their apparel keeping long-term sustainability in mind.

They use safe and ethical practices, which reduce the use of toxic chemicals.

They also aim to make the product more durable, so that it will last and you will not need to make purchases as often

## **LABOUR AND FAIR WAGES**

Ethical manufacturing companies tend to utilize local materials and resources to help develop local business

They ensure the workers making their clothes are in a safe working environment and paid fairly

They also make sure that the workers are of an appropriate age

## **TAILORED TO YOUR NEEDS**

Slow fashion factories tailor garments to your specific needs and offer bespoke designs that are not available elsewhere, as opposed to fast fashion brands which manufacture in bulk

We, at The ODD Factory ensure all the benefits of slow fashion manufacturing, with bespoke designs tailored to suit your needs.

We make sure your finished product is exactly how you envisioned it with our team of slow fashion experts
