Make your home smarter with pert™

friendlier, smarter home automation

Hi, I'm Pert!
I'd love to come home with you!

Pert is the new revolutionary innovation of the smart world, providing intelligent technology for all your home automation needs.

While other home automation solutions are expensive and unsuitable for the Indian market, Pert has ensured that its products are affordable and especially designed keeping in mind the needs of the Indian consumer. For this, extensive research has been carried out over the years, to rightly identify the needs of the market, by our creative and highly dedicated R&D team, to finally bring to you integrated home automation solutions, which are user friendly and easy on the pocket. Our team has made sure that while our products are inexpensive, there has been no compromise on its quality and performance.
Easy Installation

Convenient

Retrofit

Affordable

Pert automation systems are designed to seamlessly adapt to your living and working environment, allowing you to monitor and manage the same from the comfort of your phone, in a comfortable and convenient fashion. Pert's wide range of smart products like plugs, sensors, and switches allows you to automate your home/office, effortlessly and efficiently.

Smart Switches - 8 Node & 4 Node

Smart switch is a Wi-Fi enabled smart device, which can easily be installed into your existing 4-8 module switchboard without any re-wiring. Each Switch can also be configured to be used as a dimmer, so you can set up the perfect ambiance in your home and save energy at the same time. Pert devices are easy to remove as they are to install.

Features

Fits inside your existing switchboard.

Worry less and smile more with savings on your energy bills.

Say yes to a smoother life by setting schedules for any device.

Control through your smart phone from another room or country.

Smart Plug

Smart Plug is Wi-fi enabled 16Amps plug which directly connects with your smartphone, eliminating the need of a controller or hub. Control your appliances like air-conditioner / geyser from your smartphone. It is easy to setup and easy to use. Locally, or from the other side of the world through internet.

Features

Turn appliances on and off from the office, coffee shop, or a far-away island.

Cut costs by learning how much energy your appliances is consuming.

Schedule your geysers and Air-conditioners.

No monthly charges to function regularly in your smart home.

pert
