Brewery & Food Grade Hose

Application: Used for conveying milk foods, dairy products, wine, alcoholic liquids, soft drinks, edible oils, pharmaceuticals, mineral water etc.

Construction:

- Lining** : Hygienic quality of natural / synthetic / blend rubber compound free from odour, taste or toxic, air blisters and porosity.
- Reinforcement** : Plies of rubber coated woven textile.
- Cover** : Smooth/cloth marked finish, suitable food quality rubber compound.

Electrical Bounding : A strand of copper wire is embedded between reinforcement to provide electrical continuity throughout the hose.
