

■ PROFILE

SHIVA KITCHEN EQUIPMENTS PVT. LTD.

INTRODUCTION

Shiva Kitchen Equipments Pvt. Ltd. an ISO 9001:2008 approved company is a leading engineering house for designing, fabricating and installation of Commercial Kitchen Equipments, Restaurant Appliances, Canteen Kitchen Equipments for Industries, Hotels, Bars, Restaurants, Clubs & Hospitals.

Shiva Kitchen Equipments Pvt. Ltd. is a trusted and reliable name in the industry of Commercial kitchen equipments. The company is a prominent Manufacturer, Supplier, Importer and Exporter of high quality commercial kitchen appliances.

We are first in East India to setup and install a CNC Turret Punch & Press Break CNC Machine for our manufacturing unit. This enables us with a high quality sheet metal work & the products which we design are the best in its class.

We provide quality services in Planning, Custom Designing, Manufacturing, Installing, Commissioning and After Sales Support. Our client base extends to renowned Industries.

DIRECTOR PROFILE

Mr. Ashok Sinha is an excellent leader with very strong interpersonal skills. Commercially he is professionally qualified. His incisive brain and business skills recognize strong talent which can be applied to a wide sector sometimes not apparent in the usual search process. His international experience and knowledge brings a substantial advantage to our clients resulting in an outstanding record of success which have substantially reduced client's attrition rates and increased their retention rates of key personnel.

With its mission of "Delivering contacts that create value for your business".

In addition, he maintains professional membership with a large number of trade associations and business councils.

Mr. Ashok Sinha's experience of building successful management teams coupled with his ability to gain the confidence of people at all levels complements his strong determination that he possess.

Widely travelled and highly connected, Mr. Ashok Sinha has a network of associates, friends and well-wishers who provide total support and co-operation in his beliefs, vision and mission - enriching the lives of those who are with him.

The new rising star on the corporate horizon with varied interests in the field of Manufacturing, Trading, Importing and Exporting of Commercial Kitchen Equipments. We are poised to redefine the paradigms of business in this area.

Established April 10, 2008, as a Private Limited Company.

We are leading manufacturer and supplier of high quality commercial kitchen appliances to Hotels, Restaurants, Canteens, Industrial Kitchens, Bars, Clubs, Hospitals and all other Hospitality related environments.

Our manufacturing unit is a 30,000 Sq.ft, state of the art facility and with the addition of our newly installed CNC turret punching machine and CNC Press Brake machine from Japan. We can now set ourselves apart from other manufacturers with the guaranteed precision of production and product finishing to truly international specifications and standards.

Due to our quality range, we have been able to earn high reputation in the market and a huge client base across the country. We have attained an unrivalled position in the domestic market owing to the following significant features:

- ❖ EXPERIENCED WORKFORCE
- ❖ CUSTOMIZED SOLUTIONS
- ❖ TIMELY DELIVERY

We offer customization on certain parameters. These include the following:

- ❖ SIZE
- ❖ DIMENSIONS
- ❖ VOLUME
- ❖ CAPACITY
- ❖ SHAPE
- ❖ DESIGN
- ❖ FINISH

Foodservice/Kitchen Design & Planning Services

Our dedicated staff contributes many years of hands-on experience in planning and installations, providing assistance and meeting challenges with viable solutions.

Benefits

- Time Savings
- Fewer Design & Changes
- Pleasant work areas fitted with the right equipment enabling staff to perform with maximum efficiency.

Our kitchen designer obtain and document the operating brief from the Owner, Operator or his representative, The Owner's requirements subsequently implemented into the kitchen layouts for the project. The kitchens designs are developed in approve stages with recommendations in the interests of the development. Attention is paid to workflow hygiene, health and safety issues and to the sourcing of the suitable equipment specification.

FABRICATION AND MANUFACTURING

Shiva Kitchen Equipment has facilities to fabricate stainless steel equipment to Custom design specifications. Our considerable manufacturing facilities allow us to serve our loca customers better to ensure that quality is controlled, deadlines are met and correct materials are used.

Shiva Kitchen Equipment continually explores new industry techniques, updates factory manufacturing equipment and retains skilled fabricators. The end result is that our Clients obtain the best equipment for their needs.

INSTALLATION AND AFTER SALES SERVICE

We strive to make our installations trouble-free for our Clients whether the work is from our own plans or from those of other consultants. Care taken during the installation phase considerably reduces initial operating problems.

To maintain equipment in peak operating order our service technicians are actively supported by training and a large spare parts inventory. This keeps the down time of our Clients equipment to a minimum.

VISION

To strive and establish ourselves as the forerunners in manufacturing quality Commercial Kitchen Equipment and reliable service providers to our customers.

MISSION

To create a well satisfied customer base with quality products in commercial kitchenware and prompt services.

QUALITY

To ensure impeccable quality, we follow well defined parameters of quality control at all levels of our process.

DELIVERY

We are well supported by a wide distribution network to ensure on time completion of orders within tight deadlines which differentiates us from other players operating within India.

SATISFACTION

All our endeavours are primarily directed towards achieving the highest standards of client satisfaction. We ensure quality, competitive pricing, on time delivery schedules and transparent trade practices.

COMMITMENT

We aim to accelerate the production of innovation that connects to authentic economic value and builds trust with our Clientele.

WHY US

STAR IN SATISFACTION

We are pioneer in manufacturing of accuracy and quality equipments in the way of having specialized quality inspector to inspect the job work time to time.

STAR IN RESPONSIBILITIES

The word commitment is the backbone of our company, On-Time delivery of the product for giving satisfaction to customer like you.

STAR IN TECHNOLOGY

For error less product manufacturing we use Software like CAD & Analysing kit.

STAR IN QUALITY

We use features like Pneumatic rivet technology and Spot welding machines. As of now, this is not done by any other Organization.

STAR OF WORKING ATMOSPHERE

We are making such hallmark products in 30,000 Sq.ft area at our Liluah Factory and in a 70,000 Sq.ft. area at Dankuni in Durgapur expressway. We are having a dedicated team of people working in our Design Department, R&D Department, and Quality Control Department & Production Department. Shiva Kitchen Equipments are world class.

INFRASTRUCTURE

We have our own fabrication house with all sorts of modern facility along with a group of skilled labourers and engineers to give you ultimate satisfaction with our premium Commercial Kitchen Equipment. We possess own Research and Development wing to develop the equipment as per Chef's requirements and for high utility service.

CNC: Computer Numerical Control

We are proud to inform you that we are now equipped with CNC (Computer Numeric Control) Machine for Cutting, Punching & Bending of the Pre-Polished Stainless Steel Sheet from Jindal Steel (304 SS Food Grade) which assures you the Crisp Look, Fine Finish and Exact Measurement with Accuracy & Precision of your Commercial Kitchen Equipments. We also have Stud Welding Machine along with Riveting Machine.
